SPG

STORAGE PRODUCTS GROUP

ISS Standard by SPG
We manufacture great products at our facilities
— and create efficient solutions for yours.

Space always seems to be at a premium in the foodservice business. That's why nobody offers you as many shelving choices as ISS – solutions innovatively designed to help you use your space more efficiently and cost-effectively. ISS shelving is built to be the strongest wire shelving in its class. It's designed to be easy to assemble. And it's priced to deliver the ultimate combination of quality and value. Beyond, shelving, ISS also offers a wide array of carts, racks, dollies, workstations, and more – each designed to fulfill the needs of your foodservice operation, and all built to exacting standards.

ISS isn't alone in the quest to provide more choices and greater value in foodservice equipment. In fact, it is only one of six SPG lines dedicated to serving the foodservice industry. Along with AMCO, Kelmax, Universal Stainless, Freestyle and LPI, SPG offers the most comprehensive line of foodservice equipment available anywhere.

At SPG, we match the quality of our products with superior service. That means fast, efficient delivery of your order —

and it also means that we'll work with you to evaluate your space, understand your needs, and uncover opportunities to maximize the efficiency and economy of your operation. Then, based on your input, we'll help you select the right products or create unique solutions, and incorporate them into a design that optimizes the functionality of your space, increases the efficiency of your staff, and maximizes the long-term value of your investment. You can always Expect More from SPG.

SHELVING

Overview

- ISS Shelving is a round post system that is interchangeable with other manufacturers' shelving products
- ISS Shelving can be used in most environments making it very flexible
- ISS shelves are rated to support 1,250 lbs (565 kg) of uniformly distributed static weight for shelves up to 60" length
- Shelves are designed with extra trusses providing a higher load rating, less deflection and the ability to use longer shelves
- Posts are numbered on 1" increments ensuring faster assembly and better shelf alignment
- The one-piece hinged Sure-Lock™ coupler makes assembly easy and improves stability of the unit with a double lock on post grooves.
- The ribbed surface of the Sure-Lock™ maximizes gripping power
- The marine waterfall shelf edge allows easy loading and unloading
- The ISS line offers a full complement of shelving systems and accessories. Shelves are available in wire, solid stainless steel and plastic. Four finishes are available, plus three designer colors

ISS Shelving is warranted to be free from manufacturing defects for one year from the date of shipment.

Finishes for ISS Wire Shelving System

Finish	ISS Model No. Suffix	Application	Description
Plating Plus™	C	Dry environments	Three-step process applied to plating quality wire and steel: 1. Zinc plating; 2. Chromate seal; 3. Clear lacquer
Grey Bond® Gold Bond®	E Y	High moisture and dry environments	Three-step process applied to plating quality wire and steel: 1. Zinc plating; 2. Rust inhibiting chromate seal; 3. Electrostatically applied baked-on antimicrobial polymer coating
Stainless Steel	S	Harsh, high moisture and dry environments, never a corrosion worry	An electro-polishing treatment is applied to surface of 300 Series Stainless Steel
Designer Colors*			
Black White Red	ESB ESW ESR	Dry environments	Polymer coating is applied to plating quality steel

* Minimum quantity must be ordered for shelving with color finishes. Any combination of shelves and posts must equal 100. (For example, 40 posts and 60 shelves.)

Plating Plus™ is warranted for one year against corrosion in dry environments

Grey Bond® and Gold Bond® are warranted under normal use for ten years against naturally occurring corrosion

Stainless Steel is warranted to be free from manufacturing defects for one year from the date of shipment

Starter Unit Convenience Packs

- Convenient 4-shelf unit packed in one box
- Each carton has 4 shelves and four 2-piece split posts to make one 70" post
- Cartons take up minimal warehouse space
- One carton each saves on shipping costs and tracking time
- Ideal for immediate storage needs
- Available in four sizes and two finishes, Gold Bond® and Plating Plus™

Gold Bond® Model No.	Plating Plus™ Model No.	W x L x H (In.)	(mm.)	Wt. (Lbs.)	(Kg.)

STORAGE PRODUCTS GROUP

New Era™ Shelving System.

- Corrosion free shelves are made with heavy-duty epoxy coated steel frames and grey polypropylene plastic removable panels
- Excellent solution when shelf cleanliness is important. New Era™ shelves contain an antimicrobial agent that protects the finishes from bacteria, mold, mildew and fungi that cause odors, stains and product degeneration. Keeps shelving cleaner in between cleanings*
- Available in solid and vented styles
- Sectional panels are easy to remove and clean
- Shelves fit onto standard ISS posts and can b e   intermixed with other ISS shelving styles. Stainless steel   posts recommended
- No tools or hardware required
- Can be used in all environments from 190F (88C) to -20F (-29C)
- Load capacity of 1,000 lbs (455kgs) per shelf of uniformly distributed static weight

* This product does not protect users or others against bacteria,
- viruses, germs or other disease organisms. It is for the protection of the product only. The antimicrobial product should always be thoroughly cleaned after each use.

SPG
STORAGE PRODUCTS GROUP

EZ Track™ High Density Storage System
- For efficient and better use of aisle space, EZ Track High Density Storage is a sliding mobile storage solution to gain additional storage space
- Uses overhead tracks to attach mobile storage units. The track is anchored onto floor mounted stationary units at each end of the EZ Track system
- Mobile storage units can be rolled sideways
- Utilizes "live aisle" space of 30" to 36" for moving units around and gaining access to storage area

EZ Track™ High Density Storage System

EZ Track™ Guidelines
- Select the size and finish appropriate for the environment. The guide bar is 300 Series Stainless Steel
- The end units should be equal to or greater in width than the mobile units (14" wide shelving not recommended)
- An intermediate stationary unit is recommended for track lengths greater than 16 feet (remember to include aisle space on both sides of the intermediate stationary unit)
- For maximum space utilization, an offset rigid caster (CM6EZ) is recommended. Caster channels are included with these casters
- A 30" to 36'' aisle space is recommended
- 81" posts are recommended for stationary units and 74" posts for mobile units

Model No.	Description	Width (In.)
EZE	Fixed Unit	—
EZM18	Mobile Unit	18
EZM21	Mobile Unit	21
EZM24	Mobile Unit	24
EZT	Track Tube	—
EZJ	Joining Kit	—
CM6PEZ	Caster	—

Single Aisle System

Double Aisle System

How to Order:
- Order shelves and posts separately
- Order one EZE for each stationary unit
- Order one EZM for each mobile unit (Designate width of shelving by ordering EZM18, EZM21 or EZM24)
- Order four CM6EZ casters for each mobile unit
- Order EZT track equal to the total length of the system in even feet. (EZT includes a pair of track)
- Order one EZJ joining kit for track lengths over 20 feet (Includes joining mechanism for both sections of track)

Stem Casters

- Use stem casters to add shelving mobility and increase efficiency
- Stem casters are load rated for 75 to 300 lbs
- Three caster styles available: swivel only, swivel with brake, and rigid
- Three types of tire treads available: Resilient Rubber, Polyurethane, and Conductive
  - Resilient casters are great for use on rough flooring as they are long lasting, quiet and inexpensive
  - Polyurethane casters are non-marking and prevent undue wear on carpets and floors. They are suited to demanding environments such as extreme temperatures and the presence of solvents or organic chemicals
  - Conductive casters are designed for dissipation of static charge build-up in computer, electronic or medical applications
- The forks of all stem casters are plated steel except for   models CM6PS and CM6PSB which are stainless steel

Enclosure Panels

- Wire grid panels are an efficient way to enclose sides and back of stationary and mobile shelving units
- 3 x 3 grid helps prevent goods from falling off shelves. Not recommended for small items
- Recommended for shelving units with post heights of 54", 62", and 74" and shelf widths of 14", 18", 21" and 24"
- Order one panel for each side of shelving unit (based on shelf width dimension) and order one to four panels for back of shelving units (based on shelf length dimension)
- Enclosure panels attach to top and bottom shelves. (Clips included to secure panels to intermediate shelves). Shelves must be positioned to match panel height. See chart below

Post Height (In.)	Panel Height (In.)	Distance Between Top and Bottom Shelves (In.)
54	49	47
62	57	55
74	69	67

STORAGE PRODUCTS GROUP

Frames

Choose from a variety of frames for different storage shelving requirements.

- 3-sided and 4-sided frames available
- Available in Gold Bond®, Grey Bond® and Plating Plus™

To ensure stability for stationary shelving units, the bottom shelf should always be installed at the lowest position. When storage demands require the lowest shelf to be installed at 24" (610mm) or more above the floor it is recommended that a support frame be used.

3-Sided Frames

WIRE WORKSTATIONS

Overview
- ISS brand shelving can be used to create efficient and flexible wire workstations for most foodservice operations
- Some of the many applications include:
  - -Prep Station
  - -Drive-Thru Counter
  - -Sandwich Making Stand
  - -Mobile Equipment Stand
- Choose from a wide array of posts, shelves, shelf covers and accessories to customize a wire workstation that meets your needs. Our engineers can assist you with the design and component selection
- The strength and durability of the ISS system are ideal for most workstation applications. The shelves are rated to support 1,250 lbs of uniformly distributed static weight up to 60" in length
- The ISS round posts are numbered on 1" increments making assembly easy and efficient
- The wire workstations are available in three finishes: Plating Plus™, Grey Bond® and Gold Bond®

Prep Station with Grid

Finishes for ISS Wire Workstations

Finish	ISS Model No. Suffix	Application	Description
Plating Plus™	C	Dry environments	Three-step process applied to plating quality wire and steel: 1. Zinc plating; 2. Chromate seal; 3. Clear lacquer
Grey Bond® and Gold Bond®	E Y	High moisture and dry environments	Three-step process applied to plating quality wire and steel: 1. Zinc plating; 2. Rust inhibiting chromate seal; 3. Electrostatically applied baked-on antimicrobial polymer coating

Plating Plus™ is warranted for one year against corrosion in dry environments
Grey Bond® and Gold Bond® are warranted under normal use for ten years against naturally occurring corrosion

Mobile Equipment Stand   Assembly / Tool Bench   Drive-Thru Counter   Sandwich Making Station

SPG STORAGE PRODUCTS GROUP

## Design a Workstation in four easy steps.

Step 1: Posts

A. Determine the overall height of the workstation and select the Rear Posts

B. Order the Front Posts which will support the Counter Top

C. Choose the appropriate length for Over Shelf Posts. These will attach to the countertop and support the front of the Over Shelves

Posts that use Stem Casters are also available for Mobile Workstations.

Rear Posts

Over Shelf Post

Front Post

Step 2: Shelves

A. Choose a Counter Top shelf in 24" or 30" width

B. Add Over Shelves for additional storage and easy access to workstation components. Available in Wire and Solid Stainless Steel

Over Shelf

Wall Trax™ System

A complete wall mounted storage solution with specially engineered aluminum channel and grid system to increase efficiency.

- Wall Trax Channel and Grid are easy to install
- Easily attach accessories without the need for tools or hardware
- All shelves can be moved by simply unhooking from grid or channel
- Available in three finishes, all corrosion resistant epoxy based polymer coated:
  - Grey Bond®
  - Gold Bond®
  - Polygard® (Blue)
- NSF approved

TERMS & CONDITIONS

Order Terms and Conditions
- Orders can be submitted via EDI, email or fax and are subject to acceptance by the factory.
- Credit card orders are accepted.
- All prices, specifications and discounts are subject to change without notice.
- Payment terms are net 30, unless otherwise stated for established accounts.
- Accounts will be established once satisfactory credit references are confirmed.
- Any applicable federal, state, or local sales tax will be added to the prices.
- We will not break cartons, where applicable.
- Possession of price list does not constitute an offer to sell.

Minimum Orders
- Minimum order is $150.00 net.
- A $35.00 service charge may be added for orders less than minimum.

Quotations and Custom Fabrication
- Quotations are valid for 30 days, unless otherwise stated.
- Drawings for custom items must be signed and will be accepted as correct. Any errors arising from same will be the responsibility of the customer.
- Made to order items are not returnable.

FOB Shipping Points
- FOB locations are by brand:

    - AMCO, ISS, LPI, Freestyle: Covington, GA
    - Kelmax: Stone Mountain, GA, Valencia, CA
    - Universal Stainless: Aurora, CO

- We reserve the right to split orders based on the FOB shipping point.

Freight Terms and Conditions
- Freight, service and handling charges are not subject to discount.
- Freight carriers will be chosen by the factory unless Purchase Order specifies customer carrier and includes Prepaid & Add with third party billing address
- While Seller will use all reasonable commercial efforts to maintain the delivery date acknowledged or quoted by the Seller, all shipping dates are approximates.
- We are not responsible for any delays in delivery which are beyond our control such as fires, strikes, floods, delays in transportation or any contingencies of similar character.
- Freight claims for damages are the responsibility of the customer and all claims must be filed by the customer with the carrier promptly.
- All claims for shortages must be brought to our attention within five (5) days from the date the merchandise is received.
- Kelmax Freight Classes are based on descriptions and generalizations provided by the National Motor Freight Traffic Association, January 2007 catalog. These classes are subject to interpretation by shipper and carrier.

Special Handling Charges
- Customers will be billed for trucking company charges that are due to special requests made by the customer, including:

    - Notifying customer before making a delivery
    - Requiring a Lift Gate Truck
    - Making deliveries during specific hours

Return Policy
- The minimum value of returned merchandise must be $100 net
- Contact the factory for written approval to return merchandise
- Merchandise authorized to be returned must be shipped prepaid and is subject to a 25% restocking charge
- Returned goods must be received within 30 days of purchase
- Returned merchandise must be returned in the original, unopened and resalable packaging.
- All merchandise must have a Return Goods Authorization number to assure proper credit and must be noted on the shipping label and bill of lading.
- Certain products, such as those made to order, are not returnable. Contact Customer Service for the policy concerning specific products.

Cancellations
- Cancellations are not accepted on orders in transit or on custom equipment in production

Warranty
- Contact factory for Warranty information.

Note: Due to continuous product improvements, specifications and prices are subject to change.
