Raising the bar for **quality** equipment, while lowering the total cost of ownership.

The SPG name has only been around since 2010, however the product lines that comprise our company have been among the most well-known and respected names in the foodservice business for nearly six decades. Individually, each of the product lines below brings unique expertise, capabilities and quality to foodservice operations. Together, they offer you a total turnkey solution.

AMCO®: The industry leader in premium shelving, equipment and accessories that utilize an ultra-strong square-post system.

ISS™: Strong, versatile wire-based shelving, wall storage systems, carts, racks, dollies, workstations and more.

ISS Contender™: The industry's workhorse in wire shelving and accessories — the ideal choice for general applications.

Freestyle®: Strong, versatile and space-efficient, Freestyle® freestanding cantilever shelving and workstations provide maximum performance for every area of your operations.

Kelmax®: The gold standard in aluminum equipment — from storage and transport to specialty items for everything from produce and bakery to material handling.

Universal® Stainless: The stainless steel fabrication specialists — offering a vast array of sinks, tables, cabinets, shelves, racks, stands, counters and more.

Gillis® & Jarke®: SPG's two material handling lines deliver equipment that's tough, durable, innovative, efficient and economical.

Together, the SPG product lines create unique synergies and efficiencies that enable SPG to deliver an extraordinary array of service and products to your organization. With the broadest selection of foodservice equipment available anywhere, only SPG can offer you so many choices that lead to greater productivity, profitability, performance — and the lowest cost of ownership.

You'll find a lot of amazing products in this catalog. But only a fraction of the amazing products we make.

As you look through these pages, bear in mind that the products shown are representative of the far greater number of solutions we offer. For any item you see, there may be dozens, hundreds — or even thousands — of additional products we can provide. SPG offers different sizes, materials, finishes, configurations and accessories to ensure you get the equipment that best fits your needs and your business.

If you don't see exactly what you want in these pages, ask your SPG representative about it. With the broadest selection of foodservice equipment, chances are we already make whatever you're looking for — and can provide it to you through your SPG representative.

By creating efficiencies in our organization we can bring them to yours.

At SPG, every product we offer is designed and manufactured to provide immediate value when you buy it, and to continuously accelerate and maximize your ROI over time. To achieve this, we follow a strict, formalized process that results in the lowest cost of ownership for our customers, and that can only be achieved by a holistic approach that addresses three areas.

1. Quality Manufacturing

Incorporating best practices in manufacturing and quality control, we continually seek new efficiencies in production to drive out cost. At the same time, we use only high-quality material in our equipment — and we use more of it — to ensure our products hold more, last longer and provide enduring value.

2. Patented Efficiency Innovations

Using input from customers, our products are designed by an elite engineering team using sophisticated tools. As a result, our products are fast and easy to set up...inventory is easier to access space is optimized...staff productivity is increased...and our scalable solutions can be reconfigured to meet your future needs.

3. Total Solutions

Beyond our vast selection of equipment, SPG offers customized sizes and solutions...site design and consultative services...and the experience and technical expertise to help you get the most out of your space, your people and your investment.

An uncompromising commitment to quality...exclusive leading-edge innovation...and the industry's widest selection of products — it all comes together to provide your business with the ultimate in storage solutions and the lowest cost of ownership. And we back it with the best guarantee in the business.

The SPG Difference

Here's just a brief checklist of some of the ways SPG goes over and above our competitors to add value and lower the cost of ownership.

We Use More And Better Materials

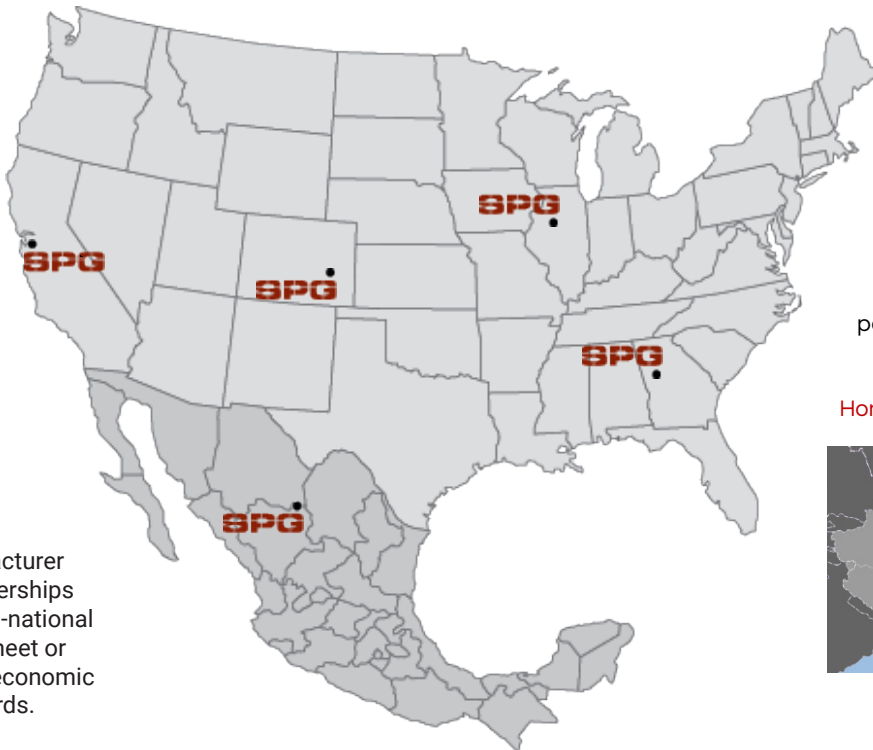

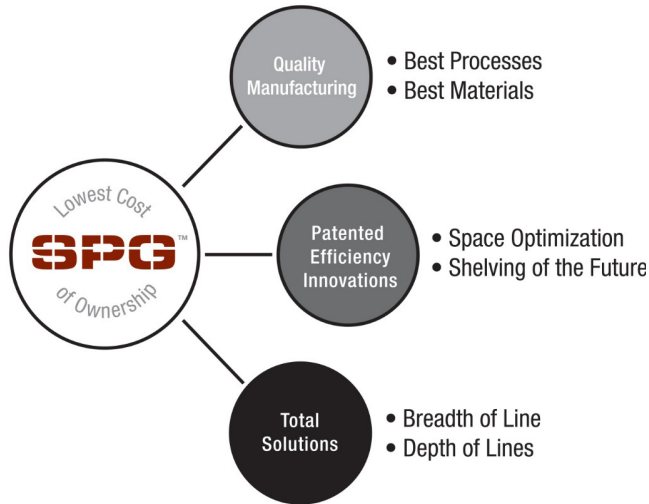

- Premium 300 Series stainless steel
- Stronger welds
- More metal at key stress points
- 27% more metal in our AMCO® shelving posts
- Full-metal thickness throughout our sink bowls

We Offer Exclusive Patented Innovation

- Award-winning ergonomics
- Cooler/freezer capacity gains of 30% - 68%
- A pan rack with a 50% smaller storage footprint

We Deliver Total Solutions

- The broadest selection of storage products
- More choices to create custom solutions

SPG is a US based manufacturer with strategic global partnerships to serve the needs of multi-national brands. All SPG partners meet or exceed worldwide social, economic and environmental standards.

With strategic partnerships in China.

SPG entities in Hong Kong & Shanghai

There are opportunities everywhere in your operation. We'll help you find them.

While we are happy to sell a customer a single piece of equipment, the real value we provide is our ability to analyze your operation and design a comprehensive solution customized to your unique needs. Working with you, we'll help you uncover the hidden opportunities that exist in your facilities. Then, we'll help you select the right systems and integrate them into your operation in a way that increases workflow, maximizes storage capacity, improves employee productivity, cuts costs and increases profitability.

We can offer you these services because SPG manufactures the widest selection of equipment solutions on the market. And, we match that selection with years of proven experience.

Our comprehensive product selection can provide an integrated system that encompasses every facet of your operations. From the backroom to the bakery to the bar...from the drive-thru to the dish and dry storage areas...we'll put together the equipment — and a comprehensive plan — that will help you maximize the efficiency and performance of your business.

Here's an illustration of the breadth of products we provide —
and an example of the type of unified, highly efficient layout we can design for you.

How to Choose Shelving

The right shelving system will provide you with the perfect combination of performance, features, benefits, longevity and efficiency. Following is a short primer on how to select and customize a shelving system that will fulfill your needs and provide your business with the lowest cost of ownership. When choosing shelving, consider:

Type of Material: SPG manufactures shelving in a wide range of material. Each has its own unique advantages: including wire, stainless steel, steel, aluminum, and plastic.

WIRE

Strong, economical shelving systems for a wide range of environments

STAINLESS STEEL

Natural corrosion resistance and strength for dry storage and harsh high-moisture environments

STEEL

Heavy-duty — with a variety of coatings for every area

ALUMINUM

Strong, lightweight and never rusts —it's the perfect solution for caustic applications and harsh environments. And it's the ideal material for both hot and cold environments

PLASTIC

Durable, rust-free and easy to clean — an economical solution for cooler/freezer use, as well as dry storage

The Environment: Cooler and freezer applications require corrosion prevention — aluminum, stainless steel and plastic are naturally rust resistant. However, SPG has special finishes for our wire shelving that provide a surface that's both extremely durable and rust resistant. All SPG shelving will perform excellently in dry environments — and all are NSF approved.

Finishes	Description	
Plating Plus™	A 3-step process that includes: 1. Zinc plating 2. Rust-inhibiting chromate seal 3. Clear lacquer NSF approved	
Contender Grey™	Dark Grey	All SPG proprietary polymer coatings have 3-step process over plating quality steel wire:
Polygard®(Blue)	Blue	1. Zinc plating
Grey Bond®	Light Grey	2. Rust inhibiting chromate seal
Gold Bond®	Gold	3. Electrostatically applied baked-on antimicrobial polymer coating
All are NSF approved for food and splash zones		
Stainless Steel	An electro-polishing treatment is applied to surface of 300 Series Stainless Steel. NSF approved for all environments.	
Aluminum	Lightweight and never rusts. NSF approved for all environments.	

The space that you can dedicate to storage. If space is limited, you'll want a space-saving solution. Cantilever shelving is an excellent choice because it has no front uprights, so you'll get maximum, uninterrupted space. Shelves that can be easily repositioned can help eliminate wasted space. In coolers and freezers, our Mod-A-Flex®, Freestyle® and Kelmax shelving systems offer built-in and freestanding solutions that can dramatically increase capacity and operational efficiency. High-density and Ultra-density systems provide the ultimate in storage efficiency by minimizing and eliminating wasted aisle space.

Capacity. If you're storing heavy, high-density products like containers of liquids, kitchen equipment or sacks of produce, you'll need stronger shelving units.

Accessibility. Shelving should facilitate access to items that are stocked and restocked on a regular basis. With SPG cantilever shelving, there are no front posts to obstruct reach. And the marine waterfall edge on our ISS™ shelving makes loading and unloading fast, easy and secure.

Future storage needs. To allow for future expansion, choose an SPG scalable system — those with add-on kits that share an upright with the existing unit. This forms a single, structurally strong and continuous unit, and saves space to maximize storage capacity and reduces capital costs.

No matter what your storage needs, SPG has the solution that will help you get more from your shelving investment. Contact your SPG representative today.

Shelving Solutions

Organizing, displaying, and storing your inventory is an essential part of your business. Whether food service, industrial, retail or hospitality, your shelving has to hold up under pressure. You'll find that SPG has an industry-leading line-up of proven, reliable shelving solutions.

SPG offers numerous shelving advantages, including:

- Strength
- Easy Assembly
- Versatility
- Durability
- Selection

SPG has the shelving you need in the specs that you require.

AMCO® Wire Shelving

- Unique square post design uses 27% more steel for greater strength and durability than typical round post systems
- Frame is 12-ga. solid steel
- Solid 2-1/8" robotic welds provide more stability than the two spot welds used on round post systems
- Shelf wire averages 50% thicker than other systems providing greater shelf capacity and strength
- Shelves come in 5 widths and 8 lengths
- Shelves up to 48" long support up to 1,000 lbs. (450 kg)
- Shelves are available in wire (standard, extra-wide, slanted and inverted with ledge) – plus heavy-duty, 18-ga. solid stainless steel, and plastic (Plasteel® and Plastic Plus®)
- Assembly is fast and easy
- Posts are notched on 2" centers to assure perfect shelf alignment every time
- Shelves have solid edges instead of truss edges, making them easier to clean and label

AMCO® Plastic Plus® & Plasteel® Shelving

AMCO® Plastic Plus® Shelving

- Grey polypropylene plastic removable panels easily snap onto heavy duty epoxy coated frames
- Sectional panels can be easily removed from frames for cleaning — no tools or hardware required
- An antimicrobial agent protects the finish from bacteria, mold, mildew and fungi that cause odors, stains and product degradation*
- For all environments from -20°F (-29°C) to 190°F (88°C)
- Strength rated to support 1,000 lbs. (455kg) of uniformly loaded static weight per shelf
- Fits standard AMCO® square posts and is compatible with other AMCO® shelving products
- Stainless steel posts recommended for a rust-free solution

* This product does not protect users or others against bacteria, viruses, germs or other disease organisms. It is for the protection of the product only. This antimicrobial product should always be thoroughly cleaned after each use.

AMCO® Plasteel® Shelving

- Steel-reinforced plastic shelves support 1,000 lbs. each
- Available in solid or vented style — solid style has raised edge to contain liquid spills
- Grey high-impact structural foam plastic
- May be used with all other styles of Amco® shelves
- Solid style accepted by the United States Department of Agriculture for direct food contact
- Stainless steel post recommended since it never rusts

ISS® Wire Shelving

- Durable round post system is interchangeable with other manufacturers' shelving products
- Ideal for most any environment
- Shelves up to 60" long are rated to support 1,250 lbs. of uniformly distributed static weight
- Shelves feature extra trusses for a higher load rating, less deflection and the ability to use longer shelves
- Posts are numbered on 1" increments to speed assembly and ensure more precise shelf alignment
- Our one-piece hinged Sure-Lock™ coupler makes assembly easy and improves stability
- Shelves are available in wire, dunnage, Series 300 solid stainless steel and plastic
- Marine waterfall shelf edge allows easy loading and unloading

ISS® New Era® Shelving

- Corrosion free shelves — heavy-duty epoxy coated steel frames and grey polypropylene plastic removable panels
- Antimicrobial agent protects the shelf finishes from bacteria, mold, mildew and fungi that cause odors, stains and product degeneration — keeping shelving cleaner in between cleanings*
- Available in solid and vented styles
- Sectional panels are easy to remove and clean
- Shelves can be used with ISS™ posts and shelving components — stainless steel posts recommended
- No tools or hardware required
- Can be used in all environments from -20°F (-29°C) to 190°F (88°C)
- Load capacity of 1,000 lbs. (455kgs) per shelf of uniformly distributed static weight

* This product does not protect users or others against bacteria, viruses, germs or other disease organisms. It is for the protection of the product only. The antimicrobial product should always be thoroughly cleaned after each use.

ISS Contender® Shelving

- ISS Contender™ round post shelving is a strong, economical solution for both dry and refrigerated storage needs
- Available with Plating Plus™ finish for display and dry environments — or Contender Grey™ Epoxy finish which is warranted for seven years against naturally occurring corrosion in high-moisture, high-humidity environments
- Each 48" shelf is rated to support up to 800 lbs. (363 kgs) of uniformly distributed static load weight — longer shelves can support up to 600 lbs. (272 kgs)
- Assembles in minutes without tools or hardware
- Shelves are installed on the posts in 1" (25mm) increments — and can be changed easily as storage needs change

Freestyle® Cantilever Shelving System

- Each shelf has a load-bearing capacity of 600 lbs. with a unit rating of 1,800 lbs. for cantilevered shelves and 1,000 lbs. capacity on the bottom shelf — for a total unit capacity of 2,800 lbs.
- No front uprights — so it offers greater accessibility to inventory
- Increases sq. ft. and cubic volume storage capacity in existing footprint
- Adjustable shelves on 2" increments for maximum flexibility — no tools required
- Unit is fully expandable side-to-side with Add-On unit — using common uprights with dual-side adjustment
- Durable heavy-duty steel construction
- Shelving available in 5 widths and 8 lengths
- Uprights available in 5 heights
- Shelves, uprights, and frame kits have a durable grey epoxy-based finish with advanced antimicrobial protective agent
- Complete assortment of accessories including hanger rails and shelf covers in wire and stainless steel

Freestyle® Reinforcement Brace

- Dramatically increases the load capacity of Freestyle® shelving:
 - by 25% on 30-in. shelves, from 600 lbs. to 800 lbs.
 - by 40% on shelves up to 24-in. deep, from 600 lbs. to 1,000 lbs.
- Provides the additional strength critical for the storage and display of heavy, high-density products
- Low-profile design and placement make it virtually invisible and will not interfere with shelf positioning
- Installation is fast, easy and requires no tools
- Significantly increases the life of your shelving
- Set includes 1 left and 1 right brace for shelf

Freestyle® Cantilever Shelving Starter & Add-On Kits

FREESTYLE 4-TIER STARTER UNITS

Includes: 1 starter frame kit, 3 standard shelves, 1 bottom shelf, and 4 standard wire covers with label holders.

Kelmax® Fixed & Adjustable Shelving

Kelmax® Aluminum Fixed Shelving

- Aluminum construction offers higher load ratings — so larger loads can be supported across a longer span of shelving
- Aluminum shelving is ideal in hot or caustic applications that might damage the coating of wire shelving
- Kelmax shelving is warranted to be free from manufacturing defects for five years
- All welded aluminum shelving ships set up
- Overall height is 60" for 2 and 3-shelf units and 72" for 4-shelf unit
- Mitered top for extra strength
- Clearance between shelves:
Two-shelf unit: 48.5"
Three-shelf unit: 22.5"
Four-shelf unit: 18.5"
- Choose from 4 types of shelves

Kelmax® Aluminum Fixed Shelving

Kelmax® Aluminum Adjustable Shelving

- Create a custom aluminum shelving solution with a choice of four different shelving types (see below)
- Load capacities from 900 lbs. to 2,100 lbs. per shelf
- Shelves are adjustable and interchangeable in the same width and length

Shelf Selection Guide

Which shelves are right for you? Use this quick reference to help guide your selection:

Solid Shelves: A solid all-around choice — ideal for storage of small items and to contain spills.

Tubular Shelves: Ideal for the storage of cases or large boxes.

T-Bar Shelves: The extra vertical support you need when storing items perpendicularly.

Channel Shelves: Provide extra strength for large or small items, while allowing air circulation.

Kelmax® Aluminum Adjustable Shelving

Solid Shelf

Tubular Shelf

T-Bar Shelf

Channel Shelf

Kelmax® Cantilever Shelving

Kelmax Cantilever Fixed Shelving Units

- Includes frame and 2 – 4 fixed shelves (20" or 24" depths)
- For safety, front legs do not extend past the bottom shelf
- Tubular bottom shelf is standard with all kits, and is easily removed without the use of tools for cleaning – all other shelves are fixed and not adjustable or removable
- Clearance between fixed shelves:
 - Two-shelf unit: 59"
 - Three-shelf unit: 28"
 - Four-shelf unit: 18"
- Channel and tubular shelves support 1500 lbs. per shelf – solid shelves support 900 lbs. per shelf
- Freestanding unit – does not require bolting to walls for support

Channel Shelf Model No.	L X W X H (in.)
20- inch wide shelves	
4H0310	36 x 20 x 72
4H0341	48 x 20 x 72

4H0351	48 x 24 x 72
4H0366	60 x 24 x 72

Kelmax Cantilever Frames and Adjustable Shelves

- Tubular base dunnage shelf is standard, and easily removed without the use of tools for cleaning
- Up to 5 additional shelf positions – shelves can be added or removed without tools
- Available in two shelf depths: 20" and 24"
- Clearance between adjustable shelves is 10"
- Maximum load capacity per shelving unit is 2,800 lbs
- Frames and adjustable shelves sold separately

Model No.	L X W X H (in.)

Wall System Solutions

Only SPG offers you so many ways to transform that unused wall space above sinks, worktables and counters into valuable storage. Wall shelving from ISS™, AMCO®, Kelmax® and Universal® all provide distinctive features and benefits — and all are available from a single source.

We have unique wall system solutions that are customized for numerous needs. The process for ordering and obtaining your wall system solution is as easy as

1, 2, 3:

- 1) Order Posts
- 2) Order Brackets
- 3) Order Shelves

At SPG, our wall systems allow you to minimize wasted time and motion — and increase productivity and service speed.

AMCO® Mod-A-Flex® Shelving

- Designed for walk-in coolers and freezers
- Ceiling mounted — no need to reinforce side walls
- Boosts capacity by up to 30% with the freedom to adjust shelves to the height of the product being stored
- No posts on the floor make cleaning easy
- Shelves can be removed without tools for cleaning
- Easy and fast adjustment of shelves; simply slide the shelf sideways to lift out of current location
- Antimicrobial grey epoxy coating for maximum cleanliness and moisture resistance

Every detail of the Mod-A-Flex® system is designed to improve employee efficiency, productivity and speed of service — reducing labor and storage costs while contributing to overall operational results.

Mod-A-Flex® not only increases storage capacity up to 30% ... it also offers greater organization and higher visibility of stock... shelves can also be quickly and easily removed and repositioned...and because there are no posts, cleaning the floor is faster, easier and more thorough.

Stationary & Mobile Security Units

AMCO® Security Shelving

- Lockable wire enclosure limits opportunities to steal, reducing losses due to theft
- Provides a secure area with adjustable shelving for storage of costly items that tend to disappear
- 2"x 2" wire-spacing prevents small goods from being removed
- Door secures at both top and bottom, and handle has hasp design so it can be padlocked (padlock not included)
- Shelves and posts may be ordered in any available finish — enclosure available in Plating Plus™ finish only
- Available in stationary and mobile models — choose from a variety of standard caster offerings

Workstation Solutions

Imagine a tough, durable storage system that can be adapted to countless applications throughout your foodservice operation. And, no matter what role it plays, it brings you greater storage capacity, greater efficiency, improved staff productivity, and greater economy.

Incredibly flexible, it can be configured to virtually any application:

- Drive-Thru & Take Out Counter
- Prep Station
- Sandwich Making Stand
- Mobile Equipment Stand
- Warewashing Station

SPG workstations allow you to get more out of your space and more out of your staff. The versatility, utility, and durability that our solution provides, adds up to greater profitability for your business

Freestyle® Workstation

- The ergonomic design maximizes usable kitchen space and provides added storage for packaging, smallwares, menus, ingredients, utensils and more
- An impressive total load-bearing capacity of 2,800 lbs.
 - each upper shelf has a 600-lb. capacity
 - bottom shelf capacity is 1,000 lbs.
- Plug and place steamers, microwaves, food warmers and other standard equipment
- Fast, easy cleaning of food prep surfaces and overall structure
- 30" deep stainless steel work surface provides plenty of area for prep work
- Open-base design delivers adequate space for a fridge under the work surface of the 48", 54" and 60" models
- Shelf and work surface heights adjust in 2" increments
- Add components or shelves without tools
- No front uprights for an uninterrupted work surface

Before you choose a workstation, consider why so many major national foodservice operations have turned to Freestyle® to improve storage, efficiency and productivity.

Freestyle® combines the versatility and flexibility of a freestanding unit while providing rock-solid strength and stability to support steamers, microwaves and other vital equipment

From the ability to add or reconfigure shelves quickly and without tools to the wide selection of accessories available – everything about Freestyle® is customizable.

Unlike most competitive units, Freestyle® doesn't require a bottom shelf for stability – freeing up floor space underneath for a refrigerator at a prep station or a safe at the Drive-Thru.

Storage is enhanced by virtue of a 2,800-lb. unit capacity...shelves that can be positioned in 2" increments...and shelf surface areas that are uninterrupted by front uprights.

Kelmax® Specialty Racks

Kelmax Aluminum Z-Racks

- Z-Racks have reinforced gussets for greater strength
- Heavy-duty runners welded to uprights
- Holds bun trays
- Keeps product fresher by allowing food to thaw properly
- Nesting reduces storage footprint by up to 50%
- Lifetime guarantee against rust
- Units have standard 5" polyurethane casters

Kelmax Z-Racks	Tray Capacity
4H7196	10
4H7204	12
4H7205	15
4H7206	18
4H7207	20

Kelmax Enclosed Cabinets

- Great for areas where cabinets will be in public view such as hospital hallways or dining halls
- All welded units with double pan tops
- Door opens 270 degrees on stainless steel hinges
- Stainless steel gravity latch is drilled for padlock
- Heavy-duty models have reinforced center supports and standard 5" x 2" casters

Model No.	Description	Tray Capacity	Spacing (In.)	L x W x H
4H2200	Enclosed Cabinet	40	1.5	28 x 22 x 68
4H5035	Enclosed Cabinet Modular Decking	20	3	30 x 22 x 71

Box & Dunnage Racks

Kelmax Poly Food Box Racks

- Ideal for transporting and holding poly food boxes from the service area to the kitchen
- Great for helping sort products in the cooler
- Strong 1" square tubular aluminum construction
- Durable 5" poly U swivel stem casters

Some soft side boxes will not work in these racks

Model #	Tray Capacity
4H0728	5
4H0731	8
4H0721	15
4H0724	20

Kelmax Standard Tubular Dunnage Racks

- Square Tubular Dunnage Racks are an economical way to hold medium to heavy-duty boxes
- All units come with a lifetime guarantee against rust
- Extra-strong 1-1/2" square aluminum tubing
- Plastic cap feet
- 8" legs

Model #	Dimensions

ISS™ Plastic Dunnage Racks

- Lightweight one-piece seamless polyethylene
- Rust and corrosion-proof
- Slotted to provide excellent air circulation
- Use in dry storage or in walk-in coolers/freezers
- Guaranteed for up to 10 years
- Holds up to 2,000 lbs. (907 kg.)
- Fits flush to adjacent units to maximize space utilization

Model #	Dimensions
DUN2436	24 x 36 x 12
DUN2448	24 x 48 x 12
DUN2460	24 x 60 x 12

AMCO® Take 10® Can Storage

This patented, gravity-fed can storage system delivers front load/ front unload FIFO inventory control – Take 10® maximizes your storage space while providing unparalleled access to inventory.

- You can use Take 10® modules on your existing shelving or purchase a complete can storage system
- Modules can be stacked atop each other so that your storage system can expand as your needs grow, while conserving valuable space
- Fits onto all brands of shelving at least 18” deep and 42” long

SM2-MB

Kelmax Full Size Can Racks

- Organize your stock room with the 4H1580 unit
- Ships set up, ready to use
- FIFO Can Rack holds 156 cans – 13 cans per opening
- FIFO is First In - First Out; load and empty from front
- All welded aluminum construction will never rust
- Mobile kit available factory installed for safety
- 5” poly U plate casters, 2 swivel w/brakes and 2 rigid

Kelmax Half Size Can Racks

- Unit doubles as work table so you maximize your space
- 5” poly U expandable stem casters, 4 swivel, 2 with brakes
- Ships set up, ready to use

Table Solutions

At SPG, we not only imagine products that create efficiencies, improve productivity, cut costs and reduce employee injuries — we build them, too. As such, we pride ourselves on the fact that we have unique table solutions that fit both your space and your needs.

We have unique table solutions for numerous needs, including:

- Adjustable Ergo Table and Deli Slicer
- Stainless VC Counter System
- Prep Stations and Work Centers
- Mixer Stands
- Clean Dish Tables
- Soiled Dish Tables
- Work Tables

SPG tables are customized to fit your needs and requirements.

Universal® Stainless VC Counter System

SPG can customize an integrated counter system that's perfectly tailored to your space and your work processes. Seamlessly integrated top-of-the line materials combined with ergonomic design create a system that maximizes utility, optimizes workflow, improves storage and promotes a clean, organized workspace.

The modular counter system will deliver the lowest cost of ownership and drive staff productivity in every area of your operation — including:

- Drive-Thru
- Dining
- Food Prep
- Bakery
- Front Counter Operations

Among the many features we can incorporate into your system are:

- Tables, open bases, side panels
- Wire or solid shelving
- One-piece tops — flat, marine edges or even configured for natural stone
- Easy access to electrical, plumbing, data services
- Sectioned base that allows custom configurations of equipment and shelving
- Integrated trash section
- Sink bowls
- Backsplash receptacles
- Cut-outs for drop-ins

For the ultimate in efficiency, flexibility and productivity, contact your SPG representative for more details.

Universal® Stainless Soiled & Clean Dish Tables

**Universal® Stainless
Soiled Dish Tables**

- 16-ga. 300 Series stainless steel tops and bowls
- 5/8" radius on all corners for greater ease of cleaning
- Sanitary 180 degree rolled edges at free sides
- Stainless steel under bracing locations provide solid top and minimal deflection
- Units ship with stainless steel H-frame legs off reducing freight and allowing quick assembly
- Units are available in "Left" or "Right" side configurations

Universal® Stainless Adjustable Ergonomic Tables

The Universal® Stainless Adjustable Ergo Table is designed with a fold-away hydraulic crank — so the work surface can be raised or lowered quickly and easily. As a result, these innovative tables provide a customized fit for each employee — to improve staff comfort, increase productivity and optimize efficiency.

- Quickly, easily adjust table surface heights from 30" - 42" or from 34" - 40"
- Uses 100% food-safe hydraulic fluid in a closed-loop system
- All models feature bullet feet, and can be ordered with casters by adding the suffix C to the part number.

Sink Solutions

At SPG, we realize that keeping your business clean and up to code is an imperative. We have a variety of commercial sinks to fit your industrial kitchen.

Our sinks have a fully fabricated bowl with full metal thickness throughout, providing greater durability and strength than a drawn sink. All corners, both horizontal and vertical, are coved at 5/8" radius, welded and polished to form a one-piece sanitary unit. All sinks are furnished with basket drains and 1-1/8" faucet holes punched in backsplash on 8" centers as required. And of course, all are NSF listed and CSA certified.

SPG has the sinks that fit your industry and your needs.
