

## STANDARD FEATURES & BENEFITS

### 100% Full Extension Roll-Out Shelving

High density storage, E-Z Glide's 100% shelf extension allows quick, efficient loading and unloading of bulky items. Shelves roll out even when loaded to capacity. Easy to install. Shipped knocked down. The E-Z Glide has welded and bolted construction with a solid steel top deck for extra rigidity (top deck does not roll out). Top deck may be used as the pickup point to conveniently relocate empty racks and for use as additional storage. All standard E-Z Glide units have available add-on units that share a common upright. The add-on is for wall-to-wall racking of shelves...or any length in between. The add-on connects to existing shelves creating a continuous assembly of any number. Units should be anchored to the floor. (Anchors not included)

- 2,000 lbs. capacity per shelf (DOES NOT INCLUDE UNIT TOP)
- Full 100% extension of every shelf
- Individual shelf height adjustable based on 2-inch centers
- Modular construction allows bolt-together expansion of multiple units.
- Horizontal access by forklift truck, cart, hand truck or any method with a height adjusting bed
- Vertical access via crane, manipulator, or monorail system
- Welded and bolted construction

Starter Model No.	Shelf Size (In.)	No. of Shelves	Overall Ht. (In.)	Wt. (Lbs.)	Add-On Model No.	Wt. (Lbs.)
